| Resina (polietileno) | Pulverizar um desengordurante doméstico sobre a superfície, esfregar com um pano húmido e enxaguar abundantemente com água. Pode utilizar-se máquina de alta pressão. Deixar secar ao ar. Nunca utilizar produtos abrasivos nem corrosivos. |
| Acabamento lacado    | Pano húmido e desengordurante suave, sem máquina de alta pressão. Uma cera para automóveis de dois em dois ou de três em três meses limita o aparecimento de riscos. Proteger do sol direto e da chuva.                                     |
| Tecido               | Pano de algodão embebido em água e sabão neutro (uma dose de sabão para nove de água), depois esfregar com um pano limpo e deixar secar. Nunca utilizar máquina de alta pressão nas almofadas.                                              |
